The World Beneath Your Feet: Soil and Water Educational Trailer

Middletown, Ohio, March 21, 2011: John XXIII Catholic School is excited to announce that they will have the Soil and Water Education Trailer at School the week of April 4-8. Butler Soil and Water Conservation District (SWCD), with the help of the [Cincinnati Museum Center at Union Terminal](#), has designed and renovated a 35 foot trailer into an impressive educational exhibit, showing soil and water. This trailer, named 'The World Beneath Your Feet' has interactive question and answer tools, as well as drawers you can pull out to see fossils and aquatic creatures. It also highlights storm drains, drainage tile, plant roots and an aquifer. This educational trailer was made possible through grants received through the [Ohio Environmental Education Fund \(OEEF\)](#) and [Butler Rural Electric](#) Community Connections, with artwork done by the [Cincinnati Museum Center](#). This unique opportunity will allow kids to walk through a traveling room to learn about fossils, aquatic creatures, plant roots, soil strata, and ground water. In addition to the soils trailer, Butler County will loan us their Erosion Table for the week. Together these tools will provide a hands-on learning opportunity for the entire school. Butler SWCD is proud to be able to have the opportunity to share this great project, to educate both children and adults through this educational display. Visit www.john23middletown.org for more details on the school or call 513-424-1196.
